Dear all

Thank you for the first sustainability BeLux all branches we had last Monday.
Were present : Tim, Dominique, Mira & Estelle. Please see below the notes , feel free to amend.

We'll meet again in December and will define the structure of topics to be addressed.

Overall objectives : Get to know each other and explore possible cross-busir

- Main expectations of this meeting per branch
  - Smulders : benchmark on heavy transport and energy systems about heating
  - Buildings : scope 3 methodology
  - EES : sharing CO2 perf ladder experiences and best practices about sustainability & legislatio
- Experience sharing during the meeting :
  - EES with Out Of Use (IT equipment, profit to NatuurPunt/Natagora)
  - Smulders had collaboration with Natuurpunt but it does not give official certificate for re-forestation, v
  - Smulders had collaboration with local waste plastic company (topic for next time)
  - EPI recycling benchmark
  - Smulders Purchasing policy : recycle/reuse
  - Performance ladder presents more detailed fields than Enablon, and it is ok , no need to add fields in
  - Smulders : sustainability games, digital quizz CO2 reduction
- 2tonnes workshop – training to become 2tonnes animator
  - Smulders might be interested to attend the 2tonnes workshop training – Tim will give list of pe Estelle can give 2tonnes workshop in English too at Smulders
  - EES will have 3 animateurs and Construction 2 animateurs trained in French. Out of these 5, 2
- Key expectations for future :
  - structure of meeting with fixed topics (CO2 performance, energy , waste ….) , with an outcome
  - Interest in site visit live meeting & Best practices sharing
  - Quarterly frequency

Best regards,
Estelle
